# Wedding Makeup & Hair Services

**Excited to meet you!**

## ABOUT ME

Hey! I'm Billie, a makeup and hair artist based in Kent/ S.E London but work has taken me all over the world - from Lake Como and Abu Dhabi to Spain and Switzerland. I have glammed hundreds of brides and have worked with some amazing people, brands and at fab places; including Laura Whitmore, Charlotte Tilbury, Ebay, The Royal Albert Hall; on music videos, short films, fashion editorials and in theatre.

My experience means I know how to take your bridal brief and interpret it into a cohesive, wearable look that feels natural, glossy, chic and not 'too done'. Wedding hair and makeup is quite simply- whatever you decide to have for your wedding day! Together we will create a personalised, modern and fashion forward look that feels fabulously and authentically you.

I make no compromise between planet conscious, animal friendly beauty and luxe quality. Ethical choices are at the heart of my practice because cruelty in the name of beauty is just not necessary!

## WHAT I DO

The only set bridal style I believe in is being unapologetically **you!**

When Rosie H-W, Florence Welch, or Lizzo hit the red-carpet, they look like themselves- on their very best day. The aisle is your red-carpet moment, and I approach your wedding day look just like I would with a celebrity client. You can expect a luxury thoughtful experience that leaves you feeling pampered.

Bridal beauty looks that are completely harmonious with your unique day and style, and feel effortlessly expensive are my thing! We achieve flattering and fresh hair and makeup by keeping texture and movement in hairstyles and placing a focus on skin that feels breathable and radiant. My kit is of course a huge part of this, and is carefully curated with tried and tested luxury and cruelty free products which I can rely upon to create looks that can be trusted to last until you've danced the night away!

**'You did an incredible job and you made me and my bridesmaids feel absolutely beautiful. You really put me at ease after feeling a little nervous during the morning too!' Hannah**

## YOUR CONSULTATION

It is truly important to me that you are confident that you are going to look and feel like the most fabulous and authentic **you** on your big day. This is the time we use to play with ideas and ensure that we create your bespoke vision ahead of recreating it for your wedding.

I recommend you get a few images together of what you do & don't love and how you usually wear your hair/makeup (both everyday and go-to-glam!) Every aspect of your day will be taken into consideration when designing your look: location, vibe of the day, outfit, jewellery tones; so any photos of relevant details give us a great starting point. This way we are on the same page and have a few visual cues to work from.

I pride myself on really listening to you and being able to translate your words into hair and makeup magic!

Our trial was really useful and we discussed and tried out lots of ideas which would suit me so I knew we had a plan for the day... it didn't even really feel like I had make up on due to the quality application and make up that you use! It was a lot of fun getting ready with you there so I just wanted to say a big thank you for helping us make such special memories on our wedding day.' **Charlotte**

## YOUR WEDDING DAY

First and foremost I promise we will have so much FUN getting you ready for your big day! The hair/makeup station is always the chatty hub of the morning where everyone gathers. I will rock up with my kit and my crystals and give you some calm energy too.

I will send you a 'glam schedule' in advance of the wedding day. Services will be scheduled for maximum organisation so we avoid missing anything, make sure we tie in with any other suppliers; and you can just sit back and enjoy the run up to the big moment!

I'll stay with you until you leave for your ceremony to make sure everything is as you want it, and wave you off (definitely with a tear in my eye, sorry in advance, I'm a crier!)

## PLANT A TREE

When you book in with me, I will donate a tree in your name via The National Trust.

This is a way to celebrate your wedding, offset my carbon footprint and give you a joyful feeling that you've done something nice for the planet. It's a tiny way for us to reverse the challenges we face due to climate change and plant some gorgeous green.

'On the day of the wedding you treated every person in my bridal party like royalty and made them feel a million dollars. Everyone's makeup lasted all day – even battling the 30 degree heat – you were phenomenal as expected!' **Sophie**

# Consultation FAQs

## **What should I do on the day?**

An empty table near a plug socket and natural light is really handy and please also have clean hair/skin ready to go. Don't feel you need to invite lots of people as too many opinions can be overwhelming!

## **When and where is the trial held?**

Consultation dates are weekdays only and held in a central London studio- unless otherwise discussed.

## **What should I wear?**

Please wear the colour/ neckline you will be wearing on your wedding day or have a scarf/top handy that we can use for reference.

## **How long do we allow for the trial?**

Trials usually take around 2 hours per service but I allow up to 2.5.

## **Can I have a trial before securing the wedding date with a booking fee?**

I don't recommend this, as I can't guarantee I can be with you on your wedding day until your booking fee is paid.

## **When do I book my trial?**

There are no rules for this, but I recommend 1-4 months before your big day.
